Add your team name, logo or mascot to complete the look.

ULTRAFUSE™ WARM-UPS

Unlike traditional sportswear, UltraFuse™ uses a dye sublimation technology in which ink is heat-infused directly into the fabric. The process not only delivers game-changing style, it offers unparalleled performance, color, comfort and durability. UltraFuse warm-ups can be customized with unique designs, your team name, logo and mascot, so your team will look as good as it performs.

ULTRAFUSE™

PERFORMANCE WEAR

GTM's exclusive UltraFuse™ performance wear collection has so many capabilities that it is easy to create a customized look. The fabric initially is white, and then GTM utilizes a dye sublimation technology and heat to infuse colors directly into the material. This process is especially ideal for the teams that want to wear color combinations not listed as standard options. Sublimation allows for incredible durability that keeps colors bold and bright and personalized designs looking brand new wash after wash.
